Summary

A final-year Software Engineering student and Full Stack Developer at Appzeto, with a strong foundation in Java and the MERN stack. NPTEL-certified in Database Management Systems, with hands-on experience in web development and participation in various hackathons and technical activities. Passionate about building efficient, scalable, and impactful software solutions.

Education

Bachelor of Technology (IT) CGPA: 9.1 / 10 **2023 - Present**

IPS Academy, Institute of Engineering & Science (RGPV)

Technical Skills

- **Programming Languages:** Java, JavaScript, SQL, HTML, CSS
- **Frontend:** React.js, HTML5, CSS3, Tailwind CSS, Responsive Web Design
- **Backend:** Node.js, Express.js, RESTful APIs, JWT Authentication.
- **Databases :** MongoDB, MySQL
- **Core Skills :** OOPs, DBMS, OS, Data Structures & Algorithms
- **APIs & Integration:** RESTful APIs, JWT Authentication, Razorpay, Google Maps API, Firebase Cloud Messaging (FCM)

Experience

AppZeto Technologies Pvt. Ltd. — Full Stack Developer **March 2026 - Present**

IT Services & IT Consulting

Technologies : MERN Stack, RESTful APIs, JWT Authentication, Razorpay Integration, Google Maps API, Firebase FCM, GitHub, Nginx, PM2, VPS Deployment .

- Contributed to the development and deployment of 10+ live client projects, primarily e-commerce and on-demand platforms covering product listing, cart, checkout, and order management.
- Developed secure RESTful APIs and JWT-based authentication using Node.js, Express.js, and MongoDB for user accounts, catalogs, carts, and order workflows.
- Integrated Razorpay for online payments, Google Maps API for address and delivery flow, and Firebase FCM for real-time order status notifications.
- Built responsive storefront and admin interfaces for product management, inventory updates, and order tracking across web and mobile.

Projects

Exnshop – Quick-Commerce & E-Commerce Platform | Playstore / Web Project Link

Technologies : MERN Stack, TypeScript, Socket.io, Razorpay, Google Maps API, Firebase, Tailwind CSS

- Developed a single-vendor e-commerce platform for product browsing, cart management, checkout, and order tracking.
- Built secure RESTful APIs and JWT-based authentication for customers and admin using Node.js, Express.js, and MongoDB.
- Integrated Razorpay for online payments, Google Maps API for address/delivery flow, and Firebase FCM for order notifications.
- Designed a responsive storefront and admin panel; published the Android app on the Play Store for live users.

Sadabharat – Multi-Vendor E-Commerce Platform | Web Project Link

Technologies : MERN Stack, JWT, Razorpay, Google Maps API, Firebase FCM, GitHub, VPS Deployment

- Developed a multi-vendor e-commerce web platform where multiple sellers can register, list products, manage inventory, and fulfill orders.
- Implemented JWT authentication and role-based access for customers, vendors, and admin with secure RESTful APIs..
- Built responsive customer storefront and vendor/admin dashboards for product listing, order handling, and sales monitoring.

Certifications

- Programming World - C,C++,Java EE+SE
- IIT Bombay - Java Training
- IIT Kharagpur, NPTEL - Database Management System
- Web Development Internship – Ypsilon IT Solutions Pvt. Ltd.

Position of Responsibility

- IEEE ICCCIT 2025 (Volunteer): Supported event coordination at the international conference, IPS Academy.
- IES IPS Tech Club (Member): Managed and organized technical events at IPS Academy.
- GDSC (Core Member): Handled social media and event promotions, IPS Academy.

Achievements

- Runner-up, VyapaarX Pitching Competition (2025) : Secured 2nd position for presenting a tech-based business idea at IPS Academy.
- SnowHacks'26 Hackathon : Participated in the national-level hackathon organized by Chameli Devi Group of Institutions (CDGI), Indore.
- AI Manthan'25 National Level Hackathon : Participated in the national-level hackathon organized by Acropolis Institute of Technology & Research, Indore.
- SSH'26 National Level Hackathon : Participated in the national-level hackathon organized by Symbiosis University of Applied Sciences, Indore.
- CDGI Hackathon (2026) : Participated in the CDGI Hackathon under the Open Innovation track.
- Hacktoberfest 2025 : Participated in the global open-source event organized by HotWax Commerce.
